

**Film Appreciation** Peter Hankinson monthly, first Sunday, 1400 at the Hammond Centre

Screenings of films by directors from around the world, giving insights into the diversity of art and imagination across many cultures. Stories from everywhere, not only Hollywood.

For the first semester of 2023, the films will be either "Made in France" or "Set in France".

Come along once a month and enjoy these films and have an informal chat about them afterwards.
